## DampDry 31 microfibre mop, Hook & loop, 40 cm, Grey

DampDry 31 collects dust and debris using static electricity when dry, and uses a wicking effect to deep clean light- to medium-soiled areas when damp.

## **Technical Data**

New equipment should be cleaned, disinfected, sterilised and any labels removed, as appropriate to its intended use, e.g. high risk vs. low risk food production areas, general hospital areas vs. intensive care units, before use.

Use Dry or Damp

Recommended preparation 150 % of item weight

Wash the products as soon as possible after use - to reduce the risk that dirt becomes ingrained with stains and odours as result.

First wash should be done at minimum 85 ° C and separately to avoid staining

After washing a mop 20 times it will take the correct size as it will shrink from the first usage 7,5%

Wash cloths and mops of various types separately, to avoid contaminating each other with lint.

Pre-rinse in cold water with frequent water change, no added chemicals - in order to remove any chemicals that can have been used for cleaning and may interfere with or cause a negative impact on the fabric at higher temperatures in the washing process
